General Gateway Response Codes

The Gateway's general response codes are used in all response messages, advice messages and reversal messages. Each code indicates a specific result, status or action. They are common for all submission components.

The following table lists all Response Codes currently supported with the meaning of each code.

Code	Description / Action / Meaning	Retry of cancelation possible
1	Invalid account data	
1	Communication Error	
3	The TransactionType for DebitDE is unknown to the system.	
12	Wrong currency sent	
100	Tx was processed but response was not stored correctly	
100	Internal error	
100	Credit card missing	
100	Hash-token calculation failed.	
100	The hashToken could not be loaded	
100	The delayed void failed	
100	The hashToken could not be stored	
2303	Invalid credit card number	
5001	Start date is before today	
5001	Start date is not after today, but today a transaction was already processed	
5001	The Order ID is missing	
5001	Next attempt date cannot be modified, Next Attempt Date should be a future date	
5001	Hash-token calculation failed.	
5002	clickToPay not supported	
5002	hosted data not supported	
5002	Recurring payments not supported	
5002	credit/return not supported	
5002	credit not supported	
5002	Store not setup to send InitiateClearing requests	
5002	brand not supported	
5002	card type not supported	
5002	Hash-token not supported	
5003	The order already exists in the database.	
5004	No authorized preauth found	
5005	FRAUD - Multiple issues	
5005	FRAUD - Card's country blocked	
5005	FRAUD - Host blocked	
5005	FRAUD - Card blocked	

5005	FRAUD - Card's BIN blocked	
5005	FRAUD - Class C subnet blocked	
5005	FRAUD - (Billing) name blocked	
5005	FRAUD - Card temporarily blocked (Autolockout)	
5005	FRAUD-Purchase limit exceeded	
5005	FRAUD - Duplicate lockout	
5005	FRAUD - blocked by custom bin profile	
5005	FRAUD - (non-)corporate blocked	
5005	FRAUD - card function blocked	
5005	FRAUD-Credit limit exceeded	
5006	Transaction not found	
5007	Invalid amount	
5008	Order does not exist.	1
5008	Recurring information does not exist.	
5009	No transaction to return found	
5009	No transaction to return found	
5010	Hosted data was not found	
5011	???	
5011	Transaction processed successfully, but storing hosted data id failed because the hosteddatastoreid is invalid	
5011	Wrong hosted data store id	
5011	Wrong hosted data store id	
5012	RPA/Preauth Number limit exceeded	
5013	Address data mandatory	
5014	Validation problem	
5015	Duplicated hosted data entry.	
5017	Voiding of returned transactions is not supported	
5018	No transaction found for void	
5019	Transaction not voidable	2
5020	Invalid track data	
5021	Invalid GDD data	
5022	not voidable	
5101	3D Secure authentication failed	
5102	ECI 7	
5103	Cardholder did not return from ACS	
5104	Cardholder did not return from PayPal	
5106	Cardholder did not return from SOFORT	
5107	Cardholder did not return from iDEAL	
5108	MOTO not allowed	
5109	No update by Klarna provided	
5110	Cardholder did not return from Rupay	
5111	Transaction failed. ECI1 and ECI6 transactions are not supported by merchant.	
5112	Debit card not authenticated	

FISERV PUBLIC

5113	Cardholder did not return from NetBanking	
5114	Cardholder did not return from Wallet	
5115	*(N/A)*	
5115	API permission missing	
5115	Connect permission missing	
5115	RESTAPI permission missing	
5116	Failure in system (iDEAL)	
5117	SecurePlus cardholder timeout	
5118	Cardholder did not return from Asian APM	
5119	Cardholder did not return from SBPS Other Payments	
5120	Cardholder did not return from Wechat	
5121	Transaction Expired	Yes
5210	Rate already used	
5211	Rate expired	
5212	DCC not configured	
5213	DCC/Dynamic Pricing not offered	
5214	transaction type not supported for DCC	
5215	DCC is not allowed for recurring transaction	
5216	Foreign currency is not matching	
5217	Foreign currency or amount invalid	
5218	Dynamic Pricing not configured	
5219	The DCC-Inquiry Id not found.	
5220	Base amount is not matching	
5221	Base currency is not matching	
5222	Dynamic Pricing not configured	
5223	Foreign amount is not matching	
5224	transaction type not supported for dynamic pricing	
5225	Exchange Rate is not matching	
5226	DCC is not allowed for this transaction	
5227	DCC must be applied for the transaction	
5228	Invalid DCC rate	
5228	DCC data could not be saved	
5311	Installment not configured	
5311	installment not supported	
5312	Invalid Installment Transaction	
5313	Number of Installment field not allowed	
5313	Installment Interest field not allowed	
5313	Installment Delay Months field not allowed	
5314	Invalid number of installments	
5314	Invalid installment delay months	
5315	Transaction is already in state DECLINED	
5317	Installment planId field not allowed	
5430	Start date after expiration date	

5432	No bank account data for giropay	
5433	Merchant setup incorrectly	
5991	Invalid direct debit track data, track three is missing	
5992	Invalid credit card track data, track one is missing	
5992	Invalid credit card track data, track two is missing	
5992	Connect extended hash already used	
5993	Cancelled by user	
5994	The selected brand does not match the card number.	
5995	order too old to be referenced	
5996	Invalid card type	
5998	order currently being processed	
5999	Wrong payment type	
6000	VOID not allowed for RETURN	
6101	allowUpopSkipAuthentication required	
6102	allowUpopUnauthenticatedTransaction required	
6103	Payer authentication error	
6104	UnionPay processor error	
6105	Wrong transaction state	
6106	Wrong transaction state	
6107	authentication too old	
6108	SMS not sent	
6109	Signature failure	
6110	UnionPay authentication failed	
6111	Skipping restriction	
6112	Unauthenticated restriction	
6113	Missing required card information	
6114	UnionPay authentication failed	
6115	Payment method not supported due to unsupported Cipher	
7200	EMI Indicator unavailable	
7201	EMI Indicator unavailable	
7202	EMI Indicator unavailable	
7778	Transaction timed out, please retry	
8002	transaction was sent but could not create the recurring payment	
8007	Recurring was cancelled or inactivated	
8325	PayPal sends an event for a transaction which is not waiting for an event	
8326	PayPal sends an event with a payment status that we do not support	
8326	PayPal sends an event with an wrong order id	
8326	PayPal sends an event with an wrong amount or currency	
8326	PayPal sends an event with an wrong transaction id	
8326	PayPal sends an confirmation for a refund, where the order has multiple refunds waiting at the same time	
10421	split shipment not supported	

10422	No further PostAuth possible for this Order ID	
10423	No final shipment settled yet	
10424	No further PostAuth possible for this Order ID	
10425	Missing mandatory split shipment information	
10426	Split shipment not allowed since the previous postauth is non split shipment.	
10427	Not possible to mark transaction for chargeback (no valid key)	
10428	Not possible to mark transaction for chargeback (no matching transaction found)	
10429	Not possible to mark transaction for chargeback (too many transactions found)	
10501	PostAuth already performed	
10501	invalid postauth attempt	
10503	Invalid amount or currency	
10504	not voidable	
10601	Total amount passed is more than the Return/Void amount.	
11111	Both Business ID and PFAC ID present	
11112	Invalid Business ID	
11255	Communication error	
11256	Void of SMS transaction is not permitted	
11257	Void of MasterCard Money Send Payout transaction is not permitted	
12000	Card security code is mandatory	
13532	Invalid card type	
17102	Invalid transaction request	
20429	cashback not supported	
20430	Transaction type not supported for cashback	
20431	Payment type not supported for cashback	
21280	invalid MCC for airline merhant	
21281	airline not supported	
21282	Invalid airline details	
21283	Invalid airline details	
21285	Invalid airline details	
21286	Invalid airline details	
21287	Invalid airline details	
21288	Invalid airline details	
21289	Invalid airline details	
21290	Invalid airline details	
21290	Missing mandatory order item	
21291	Invalid airline details	
21291	invalid card limitation	
21300	KPS Order ID must be provided by the merchant and a maximum of 32 characters	
21301	Did not return from KPS	
22812	Wrong currency	

22813	Wrong currency	
23011	Internal Dependency Error	
23013	External Integration Error	
23014	External Dependency Error	
27010	FRAUD - RiskShield
